

In its new low greenhouse gas (GHG) emission strategy to 2050, submitted to the United Nations (UN), the Ministry of Energy Transition and Sustainable Development (MEM) of Morocco suggested to raise the share of ...

"Now fully operational, this facility is a transformational project in the industry and is providing resiliency to the grid," said Brian Gorda, VP of engineering at Terra-Gen. Terra-Gen's other notable energy storage project is the 140MW/560MWh Valley Center BESS, also in California, though that project was in the headlines in 2023 for ...

Developer Terra-Gen will now investigate the cause of a fire at its Valley Center BESS in California, with public safety measures lifted and the incident considered "over". A battery storage unit in the Valley Center Energy ...

The transaction is expected to close by the end of 2024. Image: Masdar. UAE state-owned renewables energy developer Masdar has acquired a 50% stake in US independent power producer (IPP) Terra-Gen ...

In its new low greenhouse gas (GHG) emission strategy to 2050, submitted to the United Nations (UN), the Ministry of Energy Transition and Sustainable Development (MEM) of Morocco suggested to raise the share of renewable capacity in the country's total power installed capacity mix to 80%.

This strategic partnership will channel the investment towards the joint development and expansion of the 3.5GW solar power plant, which is located approximately 100km from Manila. The Terra Solar project boasts a significant 3.5GW-peak of solar photovoltaic capacity, complemented by a 4.5GWh BESS.

View of First Solar's jet black thin-film PV modules at the site. Image: SJCE / Terra-Gen. Update 8 February 2022: Terra-Gen responded to a request for more information on the project's key statistics from Energy-Storage.news, clarifying that the PPA with SJCE is a portion of the developer's Edwards Sanborn project. The PPA is for 62MWac. However, to ...

Revised in September 2020, this map provides a detailed overview of the power sector in Republic of Congo, Gabon, Equatorial Guinea and S&#227;o Tom&#233; & Pr&#237;ncipe. The locations of power generation facilities that are ...

The African Power Platform aims to connect private and government stakeholders in Africa's power sector.
