

Erma energy Spain

Where is Serma energy based?

Over the last ten years, the group has established a privileged partnership with RENAULT. To meet the new challenges of its customers, SERMA Energy is developing a test centre in Spain. Located in Valladolid where Renault has a large production and R&D centre, the new SERMA test platform should be operational in November.

What is Erma?

Erma is a fantasy - dark comedy slice of life webtoon created by Mexican artist Brandon J. Santiago.

What does Serma energy do?

SERMA Energy completes the group's technological facilities serving the microelectronics, embedded systems and cybersecurity fields, and consolidates the one-stop shop for expertise and consultancy that it offers around electronics and systems.

What is Sema energy?

SERMA Energy is a consulting, expertise and testing platform for energy and supports its clients throughout the value chain. Its resources are designed to meet all current and future standard technologies with power levels that can exceed a megawatt. Peter HERSENS presents SERMA Energy in the "Trajectoire" program on BFM Business.
