

What is ERP? ERP stands for Energy Related Products Directive. The EU introduced the ERP Directive legislation to improve the efficiency and performance of heating and hot water products. The ERP came into effect in 2010, replacing the old Energy-using Product (EuP) Directive, which featured a limited scope.

EU Energy related Products directive (ErP) The most powerful way to combat climate change is to reduce energy consumption. The EU's target of 20 per cent energy saving for products by 2020 was not only met, but exceeded. This gave legislators and governments in Europe evidence that environmental restrictions on products work.
