

Erthos solar Taiwan

Who is erthos solar?

Erthos, Arizona-based creator of Earth Mount Solar PV, has announced 14MW of contracted projects and a MOU for a 107MW single project.

How many solar projects does erthos have?

Including projects totaling 9 MW with two undisclosed developers, this brings the newly announced portfolio of contracted projects to 34 MW. Erthos now has 17 solar plants under contract nationwide, with more new projects to be announced soon.

How does erthos solar work?

Erthos' technology mounts solar modules directly on the ground without steel supports or trackers. Image: Erthos. Erthos, an Arizona-based energy technology company and creator of Earth Mount Solar PV, has announced 14MW of contracted projects and a memorandum of understanding (MOU) for a 107MW single project.

Why should you choose erthos for your solar project?

Erthos offers a complete solar integration platform with all the capabilities necessary to bring your project to fruition. From instant project estimates to project engineering, technology provisioning, financing, construction, and long-term operations and maintenance, our platform integrates every step of development for an optimized experience.

What is erthos University?

Erthos University provides online and hands-on training for builder-partners, subcontractors, and Erthos employees. Built on a standard 2 MWac block design, Earth Mount Solar is the only truly modular large-scale solar architecture.

How has erthos revolutionized solar deployment?

By eliminating structural steel and going directly to the earth, Erthos has revolutionized solar deployment. With physical simplicity comes ease of development. From initial design through permitting, financing, and construction, Erthos provides a seamless path to building a profitable, repeatable, portfolio. Sign up to receive customized details.
