ESCO is a family owned and run business specialized in designing, manufacturing, selling and distributing power transmission products and services. Our value proposition is built on three main pillars: custom designed quality solutions, outstanding service and short lead times. ESCO operates in multiple European countries, in China and in India through wholly owned ...

The Parallel Hybrid Transmissions PHT is designed for heavy duty applications with diesel engines from 200 HP to 2250 HP. The PHT unit can be easily built in with SAE connections between the diesel engine and the marine gear, is equipped with elastic coupling to connect diesel engine flywheel and has a strong electro-magnetic clutch 24 or 110 VDC to connect or ...

In the power range 0,37 kW to 37 kW. Know more. New at esco. Soft starter by AuCom. In the power range 18 A to 1250 A for various applications. Know more. ESCO. ... The name of ESCO is closely connected with modern concepts of electrical and mechanical drive system in Europe.

PHT-ratio 1,7: E-power 75 kW/1800rpm will be able to propel up to ±1000 rpm (before marine gear)
Hybrid-no ratio: E-power 75 kW/1800rpm will be able to propel up to ±750 rpm (before marine gear),
Hybrid with high speed E-motor and no ratio is not able to operate by E-power above ± 600rpm (before MG).
