

Surprisingly, the announcement was made public through the Eswatini Energy Regulatory Authority (ESERA) and not the Eswatini Electricity Company on the 7th of June 2019. The latter is a state-owned utility previously known as Swaziland Electricity Company (SEC) and currently operates a number of hydropower plants with an estimated installed ...

The changes are driven by Eswatini's desire to improve energy security, access to reliable, adequate, and affordable electricity, and the mitigation of potential detrimental impacts on the environment because of the growing energy demand. The Eswatini Electricity Company (EEC), a state-owned power utility, owns and operates four hydro power ...

Held in Mbabane on 30 September 2022, the 21st Political Dialogue between the European Union (EU) and the Kingdom of Eswatini covered international affairs (Russian aggression on Ukraine, Cabo Delgado), political and legislative matters; the urgent need for a national dialogue in Eswatini; human rights; freedom of expression and access to information; ...

This two-day event, a Team Europe effort organised in partnership with European institutions, GIZ and its platforms - GETinvest and GETtransform as well as the Government of Eswatini, Business Eswatini and the Renewable Energy Association of Eswatini, brought together experts, policymakers, and stakeholders to discuss and strategise on ...

Eswatini plans to issue a request for proposals "very, very soon" for a 40MW solar PV project, energy minister Peter Bhembe told the Africa Energy Indaba conference in Cape Town on 3-4 March. The ministry began prequalification for the project in June last year in an effort to reduce reliance on imports from South Africa. Bhembe said a 40MW biomass plant ...

Eswatini: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

The Eswatini Energy Regulatory Authority (ESERA) has announced a call for expressions of interest (EOI) from qualified private mini-grid developers for the design, construction, operation, and maintenance of the Bulimeni Solar PV-Battery Mini-Grids Project. This initiative is part of the Africa Minigrids Program (AMP), funded by the Global Environment ...
