Elia is having its flexibility requirements provided by both large-scale BESS, with one of Europe's most active markets, and distributed BESS like those from Montea as well as residential units. In September 2022, Elia said that a virtual power plant (VPP) comprising residential BESS units would cover 15% of its grid balancing needs by the ...

The Uusnivala project is just shy of being largest BESS project being built currently in the Nordic country, which at present would be a 56.4MW/112.9MWh system from IPP Neoen (Premium access article).OX2 didn"t reveal when the project is expected to come online. The BESS will participate in Finland"s ancillary service and wholesale energy markets, being ...

Streamlining Residential BESS Sales: Selling BESS units directly to homeowners is crucial for reducing costs and enhancing customer relations. Eliminating middlemen in the residential sector improves efficiency ...

IPP Ilmatar now has a 50MW PV, 20MW BESS in Knihult fully permitted to start construction in 2024 while developer SENS has signed a land lease in Hallsberg for a 50MW, earlier-stage project. Discussing Finland and the Nordics more widely, Taskinen said opportunities for optimisation are growing as an increasingly volatile energy market is ...
