

ENODA is a founder-led energy technology company, which was established in 2021, and is headquartered in Edinburgh, UK. At ENODA we embrace our vision of sustainable prosperity for everyone. Built on the principle of win-win ...

Diego Tejada Evans is Chief Revenue Officer at ENODA, and a key member of the senior management team. Diego drives growth for the company via various commercial relationships throughout the energy ecosystem, and specifically, networks. Diego leads the step-phase process for utilities to discover and adopt ENODA's energy platform on their grids.

Enoda PRIME™; Exchanger Enoda ENSEMBLE(TM) Folder: INNOVATION. Back. HERA Enoda Hydrogen Regenerator Architecture Folder: CONNECT. Back. Contact Us Gregor Moffat Head of Talent Acquisition. Gregor Moffat is responsible for ENODA's resourcing strategy, ensuring we attract the world's best talent. ...

Enoda PRIME™; Exchanger Enoda ENSEMBLE(TM) Folder: INNOVATION. Back. HERA Enoda Hydrogen Regenerator Architecture Folder: CONNECT. Back. Contact Us Founder and Chief Markets & Communications Officer. Jacqui brings over 15 years' experience specialising in strategic branding, marketing, and communications. ...

ENODA has closed its A series funding of over £20m. Lindsay Whitelaw steps into the role of Executive Chair, leading ENODA into an exciting new growth phase. Opens the way for Paul Domjan to take up the key position of Chief Policy and Global Affairs Officer. Updated November 2023

Enoda PRIME(TM) is a groundbreaking exchanger that bridges analog and digital technologies. It ensures optimal grid performance with voltage regulation, phase balancing, and more. Discover how Enoda...

ENODA's Prime exchanger technology can be deployed on the distribution network in place of a bundle of power flow equipment, including the standard transformer, and provides functionality far beyond that of voltage regulation. By actively modulating the AC signal, Enoda Prime corrects voltage, power factor, phase imbalance, and removes ...

Lindsay joined ENODA as Chairman in 2021, soon after the company was first established. After serving as its Non-Executive Chair for two years, Lindsay was appointed Executive Chair of ENODA in June 2023. Lindsay is a founder of Artemis Investment Management LLP which now manages over £29bn of client funds.

The medium archetype is an exchange platform which hosts multiple markets to facilitate and coordinate

market participation and operation. The thick archetype is a central platform which contains multiple markets, undertaking every step of their process and co-optimising across them.

Enoda PRIME™; Exchanger Enoda ENSEMBLE(TM) Folder: INNOVATION. Back. HERA Enoda Hydrogen Regenerator Architecture Folder: CONNECT. Back. Contact Us Our Values Extraordinary innovation. We are inspired to create groundbreaking technology that has a significant impact on society. ...

Professor Ryan Williams is Chief Economist at ENODA. At ENODA, Ryan plays a pivotal role in guiding both micro and macroeconomic strategies. His primary responsibilities include the analysis of the future energy grid's supply and demand, as well as the enhancement of market efficiencies to deliver cost-effective energy solutions for consumers.

The Enoda PRIME(TM) exchanger bridges analogue and digital technologies to provide real time electricity signal correction, delivering on-target frequency and voltage, increasing grid capacity, resilience, and stability in low voltage distribution networks.

Enoda PRIME™; Exchangers can enable the system to operate with very low levels of inertia. Prime Exchangers can correct the AC waveform in real time, enabling them to restore frequency almost instantaneously, closing the system energy gap of any frequency excursion even when ROCOF is high. Prime Exchangers can also correct noise and harmonics.

We can put the Enoda PRIME™; Exchanger into the distribution network of utilities all around the world improving their performance and enabling grids to become the primary provider of system stability, changing the system ...

The Enoda PRIME(TM) exchanger bridges analogue and digital technologies to provide real time electricity signal correction, delivering on-target frequency and voltage, increasing grid ...

Written evidence submitted by Enoda (ECO0020) Introduction to Enoda Enoda are committed to solving the big problems of the energy system, seeking to resolve the energy trilemma through our platform of advanced technologies. Our ENSEMBLE(TM) platform and PRIME™; technology will establish Enoda as the next-generation energy technology market leader.
