

Fiji yeti 1500x portable power station

What is a goal zero Yeti 1500x power station?

Powerful enough to back up home circuits, but portable enough to take to the jobsite or integrate into a van build--the Goal Zero Yeti 1500X power station is perfect for any project, indoors or out. Not quick enough? Drop your recharge to 3 hrs. with the 600W Power Supply (not included) or to 7 hrs. with the 230W Power Supply (not included)

What is a Yeti 400 portable power station?

The Goal Zero Yeti 400 Portable Power Station is a quiet, portable power station for base camps, cabins, and unexpected outages. It allows you to live life off the grid, camp in luxury, or power through an outage without the noise and fumes of traditional back-up generators. The Yeti 400 is rugged, durable, and rigid.

How much power does a Yeti 6000x portable power station have?

The Yeti 6000X Portable Power Station provides 6,071 Wh of energy storage in a modern, Li-ion NMC battery. This energy can be pulled through a 2,000W AC inverter (3,500W surge), which allows you to run even large-sized appliances like refrigerators and power tools.

Why should you buy a Yeti 1000 lithium portable power station?

The Yeti 1000 Lithium Portable Power Station is designed to be versatile and, with built-in surge allowances and multi-stage protection, it provides great compatibility with a wide range of devices, from lights to laptops, refrigerators to power tools. It does all this quietly.

What size inverter should I use with a Yeti 1500x?

Pair the YETI 1500X with the rugged Boulder 100 Briefcase for mid-sized to large devices. Our bestselling large power station now comes with even more power and a bigger inverter to let you tackle any project, indoors or out. The new 2000-Watt AC inverter allows you to confidently run anything you need to get the job done.

How long does it take to recharge a Yeti 1500x?

The Boulder 100 Briefcase will provide 100W of solar and fully recharge the Yeti 1500X in 18-36 hours of sun. Plug it into the wall. Fully recharges in 14 hours using the included 120W Power Supply AC Wall Charger. Not quick enough? Drop your recharge time to 3 hours using the available 600W Power Supply or 7 hours with the 230W Power Supply.
