

Fiji zenergy battery

What type of batteries will you get at zenaji?

The type of batteries you will get at Zenaji consists of a unique battery management system. The system provides the ultimate battery protection and optimises the performance of your battery. We ensure all our battery systems offer a long-term solution to all your energy storage needs.

Why should you choose zenaji batteries for your energy storage system?

The flexible design of energy storage systems can accommodate both small-scale and large-scale applications. Zenaji supplies an extensive range of Australian made batteries that use 100% of installed capacity. The batteries can meet your energy demands in case there of any emergency or a sudden spike in overall energy consumption.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

How long does a zenaji battery last?

By working closely with LTO battery manufacturers over the last three years, Zenaji managed to strike the perfect balance of high energy density and reduced costs. The result, the Zenaji Battery range, capable of lasting over 20 years, with a great economic return on investment for homeowners and business owners alike.

What is a zenaji Aeon battery?

The Zenaji Aeon Battery is designed for use in domestic, commercial and stand-alone energy storage installations. If you need a battery that uses 100% of its installed capacity, then we highly recommend choosing an Aeon Battery. Such batteries have a continuous power of 1.25C and a longer service life of around 50+ years.
