

What is Finland's Energy Policy?

Finland's approach includes nuclear energy, more renewables for electricity and heat, improved energy efficiency, and economy-wide electrification. After Russia's 2022 invasion of Ukraine, Finland moved to cut Russian energy imports, which previously comprised 81% of crude oil, 75% of natural gas, and 19% of electricity imports in 2021.

Who sells natural gas in Finland?

Gasum is the Finnish importer and seller of natural gas, which owns and operates Finnish natural gas transmission system. Natural gas vehicles aren't popular in Finland, but natural gas powered buses exist.

Are natural gas buses popular in Finland?

Natural gas vehicles aren't popular in Finland, but natural gas powered buses exist. On 21 May 2022, the supply of gas from Russia to Finland was cut off because Gasum refused to pay for the gas deliveries in rubles as required by the Russian gas company Gazprom and Moscow.

What is Finland's energy consumption?

Finland's per capita energy consumption is notably high, driven by its heavy industry sector and significant heating requirements due to its cold climate. In 2021, the industrial sector was the primary consumer of energy, accounting for 52% of Total Final Consumption (TFC)--above the International Energy Agency (IEA) average of 36%.

What are Finland's energy subsidies?

The public energy subsidies in Finland in 2013 were EUR700 million for fossil energy and EUR60 million for renewable energy (mainly wood and wind). An increased feed-in tariff was used for new wind power industry in 2011 to 2015.

What is Finland's Energy and Climate Strategy?

Finland's energy and climate strategy targets carbon neutrality by 2035, emphasizing energy security, sustainability, and biodiversity.

BGL Energy specializes in the turn-key delivery of utility, commercial, and industrial scale solar power photovoltaic plants and energy storage systems within the renewable energy sector. The company offers a range of services including project development, design, construction, and long-term operation and maintenance for solar energy solutions.
