

What is EnerBlu cogeneration SRL?

The mission of Enerblu Cogeneration Srl is to offer its customers technologically advanced energy efficiency solutions as well as a service that continuously aims at excellence.

Who is EnerBlu cogeneration?

In the fields of combined heat and power, biogas and biomethane, Enerblu Cogeneration is one of the market leaders for those who want to improve their competitiveness whilst saving energy and curbing environmental emissions.

Who makes EnerBlu cogenerators?

Thanks to Costell's entry into the group, Enerblu is today the only Italian company with a complete range of cogenerators, from 6 kWe to 20 MWe with endothermic engine or turbine technology.

Can EnerBlu supply Tele-assisted cogeneration Islands?

Enerblu is able to supply complete and fully tele-assisted cogeneration islands remotely from our service, managing all the main thermal vectors such as hot, cold (air conditioning and refrigeration) and superheated water, steam, diathermic oil, hot air.

What makes EnerBlu a good cogenerator?

Enerblu designs in detail all its machines and directly produces all the heat exchangers that equip the cogeneration units, including water / exhaust gas exchangers, thus creating a product that fully meets the needs of the customer. Very rich is also the range of cogenerators for biogas plants fed by animal waste or landfill gas.

Can EnerBlu cogeneration units be placed inside technical premises?

Enerblu Cogeneration has implemented its own range of middle cogeneration units with an indoor arrangement that reduces considerably the clearances so they can be placed inside technical premises. MOD. EFF. EFF. MOD. MOD. *Ask the company for the data sheet.

Enerblu Cogeneration ha come obiettivo quello di essere un "partner" tecnologico nel mercato dell'efficientamento energetico. Con una delle più ampie gamme di cogeneratori a gas presenti sul mercato e con un approccio "famigliare", ...
