

Foxess seems to be fairly common in the UK market. Tesla offers whole home backup on the battery but IIUC is cloud based integration with HA only. I don't know much about givenergy, enphase or solaredge. If you have solar and battery installed and are managing via home assistant, what has your return on investment been like? Cheers.

(just press enter 4 times) - in the Settings, select the "Battery" menu and in the battery menu select Min SoC and change it to 10, then select On Grid MinSoc (this is "battery ...

calum wrote: ? Thu Nov 16, 2023 11:50 am We had our system fitted almost exactly a year ago, and the unprotected batteries stopped working several times during the cold snaps we had last winter. I built the box in mid January, and after that everything worked pretty well, although we probably weren't getting the absolute best capacity out of the batteries.
