Are there free solar panel grants in the UK?

*Available solar panel grants in the UK as of April 2024 While some of the government initiatives are completely free solar panel grants, others are loans or reductions in VAT that count as solar panel government schemes. The application process and eligibility criteria for each of these are different, so let's go over each policy.

Can I get free solar panels?

Mr Solar can help help you navigate through the application process and give you access to the funds. Under the ECO 4 Scheme, you may be eligible for free solar panel installation. If you are not eligible for free solar panels, you may still be able to get a grant to help cover the cost of installation.

Do you qualify for a free solar panel installation?

This includes providing fully free solar panel installations for eligible households. The scheme is part of the government's effort to meet its climate change targets and tackle fuel poverty. To be eligible for this grant, you must meet certain criteria, including receiving certain benefits or having a low-income household. Curious if you qualify?

What is the free solar panel scheme?

The Free Solar Panel Scheme, also known as 'rent-a-roof', was an innovative program in the UK allowing homeowners to benefit from solar panels without the upfront costs. Under this scheme, companies would install solar panels on a property at no immediate cost to the homeowner.

How do I qualify for free solar panels in the UK?

You may qualify for free solar panels if you're eligible for one of the UK's four main grants. However, two of these grants are only available in England, one can only be accessed in Wales, and all of them come with stringent qualifying criteria that target the most deprived households.

Should you apply for a solar panel grant?

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,040. We recently conducted a survey of over 1,540 Independent readers who own solar panels* to understand how they made the most of the solar panel funding available to them.
