How does South Africa's new solar-panel tax incentive work?

Here's how South Africa's new solar-panel tax incentive will work. The government would like you to install some solar panels please, and is willing to give you R15,000 if you do that - albeit by giving you back some of your own money. Also, to claim that full amount, you'll need well over R60,000.

Can You claim a solar rebate in South Africa?

South African individuals and homeowners can now claim rebates of up to 25% of their solar panel costs, up to a maximum of ZAR 15,000 (\$800). Recent changes to the solar rebate scheme specify that the panels must have a minimum output of 275 W. They can be installed as part of new or existing systems.

Can I get a tax break for installing solar panels in South Africa?

As long as you can find someone to sell you already scarce solar panels, and get them installed, and can wait until mid-2024 to get your money back. Here is how claiming South Africa's new tax break for installing solar panels will work. You'll need more than R60,000 to get back R15,000, and that is as good as it gets.
