The French Southern Territories are largely uninhabited, with the exception of scientific personnel and military personnel. The population varies from 150 to 310 people throughout the year, depending on the research activities. There are no permanent residents, and the people who do live there temporarily are mostly French scientists, engineers ...

Observed changes in the number of breeding pairs of king penguins at a Kerguelen (six colonies), b Ile de la Possession/Possession Island at Crozet (five colonies), c Ile aux Cochons/Pig Island ...

VARTA AG produces and markets a comprehensive battery portfolio from micro batteries, household batteries, energy storage systems to customer-specific battery solutions for a variety of applications and, as a technology leader, sets ...

I recommend Meri Energy both for the quality of the products offered and above all for the assistance provided. It is a good product-the design is beautiful, the installation is easy and quick, the handling is good. It is easy to move even by one person and to be fixed on the wall or in the basement. The system works perfectly

and I would ...

Meri Energy AG is a Switzerland based startup whose mission is to help the world transition completely to renewable energy by making renewable energy products more affordable. The team has decades of experience in the production and sale of high-tech products in the field of Renewable Energy.
