

What is the French Southern Territories?

The territory is sometimes referred to as the French Southern Lands (French: Terres australes fran&#231;aises) or the French Southern Territories, usually to emphasize non-recognition of French sovereignty over Ad&#233;lie Land as part of the Antarctic Treaty System. The entire territory has no known permanently settled inhabitants.

What are the French Southern & Antarctic Lands?

The French Southern and Antarctic Lands are an overseas territory of France that consist of the following: Ad&#233;lie Land (Terre Ad&#233;lie): This is the French claim on the continent of Antarctica. Crozet Islands (&#206;les Crozet): A group of islands in the southern Indian Ocean, located south of Madagascar.

Are there trees in the French Southern Lands?

Because of their isolation and subpolar location, the French Southern Lands are relatively depauperate of vegetation, with both Saint-Paul and Crozet having no native tree or shrub species. However, eight of the 36 higher plant species are endemic.

Why are the scattered islands not linked to French polar strategies?

Firstly, the Scattered Islands are mostly coral atolls that formed around Madagascar. They are not linked to French polar strategies because of their tropical climate and face contested sovereignty by several countries including Madagascar and Mauritius.

The French Southern and Antarctic Territories -- Terres Australes et Antarctiques Fran&#231;aises (TAAF) -- form an overseas territory of France, established in 1955, that consists of several groups of islands in the southern Indian Ocean and a sector of Antarctica (see maps) that is claimed by France. The Antarctic territory is called Ad&#233;lie Coast (Terre Ad&#233;lie).
