

Freyr battery gigafactory Luxembourg

Does Freyr battery have a Giga America plant?

Freyr Battery has begun construction of its "Giga Arctic" factory in Norway, which is the template for its planned "Giga America" plant in Georgia. European lithium-ion battery upstart Freyr Battery is deepening its transatlantic ties, lured to the US by lucrative incentives that have unleashed a clean energy manufacturing renaissance.

Could Freyr become a global battery powerhouse?

Freyr, a struggling Norwegian startup hoping to become a global battery powerhouse using a highly automated cell production system, got shareholder approval to become a U.S. company by the end of 2023, which will help it seek federal incentives for clean energy projects.

Can Freyr battery be financed by Eksfin?

FREYR Battery's factory can play a key role in building a powerful, high-tech value chain within batteries in Norway and the Nordic countries. Eksfin has therefore indicated participation in the financing of the project in collaboration with other financiers and investors.
