

Georgia kit solar banfield

If you want to use solar power for your home, you have options. You may be able to buy or lease a system or sign a power purchase agreement. Your choice can affect how much you spend up front and over the life of the system, whether you get certain tax breaks or not, and your responsibilities when you sell your home.

What solar solution is right for you? Use our residential solar adviser tool to explore considerations and estimated costs for a solar panel installation on your home. Get real life figures to help you determine the best solar program for you and your goals.

Now everyone can use solar! From home installation or buy back programs, to workplace solutions or non-installation options, our goal is to make solar an option for every Georgia Power customer. Not sure what solution is right for you? Use our solar adviser tools to find the best solution for your sustainability goals.
