

Germany ep systems

Why is EP Germany's best service provider?

In addition, ep has been recognised as Germany's best service provider by Focus for the second time in a row. Our DIN ISO 9001:2015 DIN ISO 27001:2013 and Tisax certified processes form the basis for this success. This also explains our growth in recent years, which is also reflected in some impressive figures.

What's new with EP Systems?

EP Systems encourages industry leaders to get onboard with EPiC 1.0 now for a seamless transition later. EPiC 2.0 is a drop-in replacement for the EPiC 1.0 TSO system so it's easy to upgrade. Currently, one of the challenges with energy density is that it's targeted toward short-range missions.

Which aircraft will use EP Systems' Epic Energy Storage System in 2023?

EP Systems expects its Epic energy storage system to be in use on around 14 aircraft types in 2023, including Ampaire's EcoCaravan hybrid-electric conversion model. Ampaire's planned conversion of the Cessna Grand Caravanto hybrid-electric propulsion will use EP Systems' Epic energy storage system. (Image: Ampaire)
