

Getting solar power at home

How do I Go Solar for my home?

The most common way to go solar for homeowners is the installation of panels on their roofs. These systems can be purchased directly through an installer (or assembled for the DIYers) as a large cash purchase or through relatively affordable financing (such as a 1.99% APR 15-year loan).

How do I get solar power?

Here are the steps to take to get powered by sunshine. Choose a solar installer. An installer can help you determine whether your roof is suitable for solar panels. Begin by researching qualified, insured installers online or asking for recommendations from people who've gone solar.

How do I choose the best way to use solar electricity?

Before deciding on the best way to use solar electricity at home, assess the potential solar energy that can be produced at your address. Because PV technologies use both direct and scattered sunlight to create electricity, the solar resource across the United States is ample for home solar electric systems.

Is solar power a good option for your home?

Solar power can be an attractive prospect for homeowners and shoppers. Home solar technology offers electricity bill savings, more energy independence, and resilience in the face of an increasing rate of power outages. For the environmentally conscious, it provides an eco-friendly alternative to existing electricity sources.

Can I install solar panels myself?

It is possible to install most of a solar panel system yourself -- mounting the panels on your roof and connecting them to each other. But if your home is connected to a grid, you'll need to hire a licensed electrician for the final connection needed to feed electricity to your utility.

How can I save money on solar energy?

The most powerful savings tool for homeowners who buy their solar systems is the federal solar tax credit, available for installations through 2033. It allows you to subtract 30 percent of the cost of buying and installing solar heating, electricity generation, and other solar home products from your federal taxes.
