How do I prepare for a solar panel installation?

Installing solar panels helps homeowners save money and invest in cleaner energy. To prepare for an installation, determine your energy needs and home compatibility with a solar panel system. The installation requires complicated electrical work and paperwork that any reliable solar installer can handle.

How to install solar panels?

Once racks are in place, installers have to carefully place solar panels on them while utilizing suitable clamps or mountings. The solar system needs to be wired after mounting equipment's. Electrical conduit should run from various parts like inverters, disconnects, electrical panels to the solar panels among others.

How does a solar installer install a roof?

Any open holes in your roof shingles will be sealed to prevent leaking. The installer will then install the solar panels to the racking and connect the electrical wiring. They'll also install any additional equipment, such as an inverter or battery bank. Many solar installers can complete installation in just one day.

How do you install solar panels on a rooftop?

Solar involves electrical work on rooftops, only attempt DIY if you have experience. Hire a reputable, licensed solar contractor if using professionals. Verify they have an electrician on staff. Have the installer provide a detailed plan with panel placement, wiring runs, and electrical connections.

Can you install ground-mounted solar panels on a pitched roof?

You can install ground-mounted solar panels, though you'll again need more space than you would if you installed panels on a pitched roof. This is because you'll need to space out your panels so they don't cast shade on each other, just like on a flat roof.

How do I choose a solar installer?

Choose a solar installer. An installer can help you determine whether your roof is suitable for solar panels. Begin by researching qualified, insured installers online or asking for recommendations from people who've gone solar. Comparison-shop by asking multiple installers to come assess your roof.
