

Site description. Measurements were performed at the Gonghe PV power plant (36. 130° N, 100.574° E), Qinghai Province, which is located approximately 18 km south of ...

Benefits and risks of photovoltaic panels on soil microbial diversity, proliferation, and metabolic activity  
Consistent with recent investigating focusing on soil archaeal ...

Downloadable (with restrictions)! As the installation of large-scale photovoltaic (PV) facilities in the barren area of Gonghe, China, would cover a substantial portion of the Earth's surface with PV ...

Download scientific diagram | (a) The location of the Gonghe Photovoltaic (PV) Power Plant in the Qinghai province. (b) The relative position of the monitoring sites. (c) PV monitoring site. (d ...

However, few studies have focused on the influence of large-scale PV power plants on soil heat exchange. Thus, this article studied the effects of two types of PV panels (fixed-tilt PV panels ...

Fig. 1 Location of the sampling sites in photovoltaic industrial park of Gonghe, Qinghai. The two figures on the left show the location of the study area and sampling sites, respectively. The ...

microclimate compared with that of an area without PV panels, and the PV arrays decreased the summer soil temperature by 5.2 °C and increased the winter soil temperature by ...

However, few studies have focused on the influence of large-scale PV power plants on soil heat exchange. Thus, this article studied the effects of two types of PV panels ...

Photovoltaic Industrial Park is located, is an ideal area for the development of solar PV power generation because of its poor soil physical structure, low soil nutrient and organic matter ...

After being connected to the grid for power generation, there are still many yaks roaming and grazing leisurely under the solar panels. This combination of grazing and photovoltaic power generation is particularly ...

Photo shows sheep grazing on the grassland under solar panels at the photovoltaic park in Talatan area of Gonghe county, Qinghai province. (Photo/Qi Zengbei) Before the photovoltaic project was established in 2012, ...
