

GoodWe Industrial and Commercial Photovoltaic Energy Storage

What does GoodWe offer?

GoodWe offers Commercial and Industrial Energy Storage solutions for EPCs, developers, and owner-operators to utilize roof resources and generate revenue.

Who is GoodWe PV Building Materials BU?

GoodWe PV Building Materials BU is dedicated to providing customers with integrated PV building solutions based on the comprehensive use of renewable energy through PV building materials and their applications.

What is a GoodWe EM series bi-directional energy storage inverter?

The GoodWe EM series bi-directional energy storage inverter can be used for on-grid PV systems, with the ability to control the flow of energy intelligently. During the day, the PV array generates electricity which can be provided either to the loads, fed into the grid or charge the battery, depending on the economics and set-up.

What is a GoodWe BT series inverter?

The GoodWe BT series is an AC-coupled retrofit inverter, which is able to upgrade existing three-phase on-grid PV systems to storage systems. The AC-coupled solution can transform any three-phase on-grid PV system into an energy storage system with batteries, enhancing grid independence and self-consumption.

Is GoodWe a good choice for a solar-powered home?

GoodWe provides a solution to generate clean electricity for your own solar-powered home. When it comes to residential solutions featuring superior safety and easy installation, GoodWe is the ideal choice for homeowners to go solar.

Why should a business install a GoodWe inverter system?

The inverter solutions of GoodWe are at the core of every system, intelligently managing the battery while optimizing PV yield. By installing GoodWe's PV energy storage system, businesses, both large and small, can benefit from significant economic, environmental, and operational advantages.

GoodWe provides commercial and industrial energy solutions for EPCs, developers, and owner-operators to utilize the roof resources. With unrivalled technical expertise and optimized design, GoodWe can comprehensively drive ...

GoodWe Smart Energy Management System (SEMS) is a cost-free monitoring platform which offers reliable operation of photovoltaic plants with maximum yield. SEMS allows operators to simultaneously monitor a diverse range of ...

GoodWe Industrial and Commercial Photovoltaic Energy Storage

Building on the proven success of GoodWe's cutting-edge hybrid inverters, the company is set to unveil a brand-new suite of energy storage solutions specifically designed for the commercial and industrial (C& I) segment.

The GoodWe ES series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems, with the ability to control the flow of energy intelligently. During the day, the PV array generates electricity which can be ...

GoodWe provides commercial and industrial energy storage solutions for EPCs, developers, and owner-operators to utilize the roof resources. Types of residential & commercial solar power ...

Ron Shen, vice president of power electronics manufacturer GoodWe, recently spoke to pvmagazine at The smarter E Europe event in Munich, Germany, about the company's position in the ...

GoodWe offers an extensive range of products and solutions tailored for residential, commercial and industrial, and utility-scale PV systems, delivering reliable and high-performance solutions across its entire portfolio. In ...

At this year's exhibition, GoodWe is to spotlight its enhanced residential solution lineup, EcoSmart Home, with strong focus on catering to the local market's energy storage needs. An additional highlight will be the ...
