Cornelia Nicklas (German Environmental Aid) called geothermal energy "important for a climate-friendly energy supply". However, she noted critically that the draft does not mention the possible dangers of geothermal drilling for the environment "- risks of damage during drilling, possible contamination of groundwater with pollutants".

Germany: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
