

2 ???· The country needs the energy storage units as soon as possible to keep renewable energy curtailments at acceptable levels. So far this year, the curtailments have reached 3.7% and are expected to rise further in 2025. The cancellation adds to fears of delays for Greece's first battery systems.

"Energy Performance Certificates", simply put, measure the energy efficiency of buildings in Greece. "Energy Label" is another word used for EPCs and means the same thing. EPC"s apply to all buildings including residential buildings, offices, and warehouses, but for the sake of simplicity, we"ll focus on EPC"s for residential ...
