

Green power systems Jamaica

Is MPC energy leased land in Jamaica for a solar power plant?

Europe-based global clean energy firm MPC Energy Solutions, which is listed on the Oslo Stock Exchange in Norway, is reporting that it has leased several acres of land in Jamaica as part of a major project to develop a 72.5-megawatt, MW, solar power plant here.

Can JPS distribute electricity in Jamaica?

While Jamaica has several firms that generate electricity, only JPS can distribute the power, due to its exclusive licence with the Jamaican government as operator of the national grid.

Does Jamaica use solar power?

Jamaica has yet to see large-scale development of solar power, with no utility-scale facilities installed to date. However, there are notable solar installations, such as the 1.6-MW rooftop array at the Grand Palladium Jamaica Resort & Spa and the combined 500 kW installed across 33 facilities by the Jamaica Broilers Group.

What is Jamaica's energy policy?

Jamaica's National Energy Policy, published in 2009, sets targets for renewable electricity generation, energy efficiency, and greenhouse gas emissions to be met by 2030. The policy document outlines Jamaica's comprehensive long-term energy plan.
