

How do I install a greenhouse end wall bracket?

Both require the use of brace bands, carriage bolts, and self-tapping screws. Greenhouse end wall framing brackets for metal beams come in two sizes: 1 1/2" x 1 1/2" and 2" x 2". Both are made of hot-dipped galvanized steel. For vertical end wall support, place one bracket on the top end of the metal beam, securing it with self-tapping screws.

Can you use a bracket on a greenhouse?

This bracket can be used for metal or wood beams, but it is recommended to use only horizontal beams along the greenhouse frame's flat edge. Secure one side of the bracket to the greenhouse frame and the other to your beam. You can use self-tapping screws or carriage bolts.

Can you use a 90 degree corner bracket on a greenhouse?

The 90-degree corner bracket can also be used to secure the end wall of a greenhouse. This bracket can be used for metal or wood beams, but it is recommended to use only horizontal beams along the greenhouse frame's flat edge. Secure one side of the bracket to the greenhouse frame and the other to your beam.

How do you mount a jiggle greenhouse end wall?

Jiggle Greenhouse has a 1 1/2" x 3 1/2" end wall bracket adapter for 2x4 nominal wood beams if you create your greenhouse end wall using wood. This end wall bracket is also made of hot-dipped galvanized steel. For vertical end wall support, place one bracket on the top end of the wood beam, securing it with self-tapping screws.
