

# Grenada company profile solar energy

Where does Grenada get its energy from?

Grenada derives almost all of its energy from imported hydrocarbons. In 2020, non-renewables accounted for roughly 98% of installed capacity and electricity generation, with solar energy making up the difference.

Who is responsible for energy projects in Grenada?

The MOID (Ministry of Infrastructure Development, Public Utilities, Energy, Transport, and Implementation) is responsible for energy programs in Grenada. MOID handles the majority of permitting related to energy projects.

Does Grenada have a national oil company?

Grenada does not have a national oil company. The Global Petroleum Group and an undisclosed Chinese company were heading oil exploration projects in Grenada as of October 2018. As of early 2021, approximately 235 employees worked for Grenlec on electrical generation, transmission, and distribution.

Where do companies find oil & gas in Grenada?

Companies began to search for offshore oil and gas in Grenada's waters in 2017 following the passage of a Hydrocarbon Exploration Incentive Bill. The area of focus is where the maritime boundaries of Grenada and Trinidad and Tobago meet. During a 2018 exploration by Global Petroleum Group, indications of natural gas were found.
