The Electricity Supply Bill would immediately revoke GRENLEC's exclusive generation license. This would open the door for independent power producers to obtain generation licenses and build generation that ties into Grenada's power grid. Power producers utilizing renewable energy generation would receive a preference for licensing.

Testimonials Kemille Bristow"I joined KM² Solutions nearly 7 years ago. I quickly realized the opportunities for growth within the organization thanks to the policy of promoting internally. Within a short time span I was promoted from an agent, to a team lead, to a supervisor, and then to a program manager. The policy of promoting
