

Grid company Liberia

Who is Liberia Electricity Corporation?

Meeting the increasing demand for electric energy in Liberia and simultaneously serving as a catalyst for socio-economic development, Liberia Electricity Corporation is the shining light of the nation's energy industry.

How did Power Africa support the Liberia Electricity Corporation?

Power Africa supported the Liberia Electricity Corporation as they entered into a public-private partnership arrangement with Jungle Energy Power(JEP), a local energy firm, to operate and manage the Bong County grid.

Do Liberians need a grid electricity system?

Only 3 % of Liberians had grid electricity access in 2019, among the lowest globally. Traditional biomass use poses indoor air pollution risks, especially for women and children. Outdated infrastructure, fuel dependence, and funding constraints hinder progress. Abundant renewables, international support, and off-grid options offer solutions.

Liberia Electricity Corporation (LEC) is a publicly owned electricity utility company created by an Act of the National Legislature in 1973 (the LEC Act as amended by the LEC Amendment Act of 1976) with a mandate to generate, transmit and distribute electricity in Liberia. ...
