Our off-grid lithium batteries feature advanced lithium iron phosphate (LiFePO4) technology providing numerous benefits over other batteries, including faster charging times, longer cycle life, and enhanced safety. These batteries are lightweight, compact, and maintenance-free, making them ideal for any off-grid applications.

As global demand for reliable and sustainable energy sources grows, off-grid energy solutions have become a key focus for industries, communities, and individuals alike. MK is proud to be at the forefront of providing cutting-edge lithium battery storage solutions that enable energy independence, particularly in remote or off-grid environments.

The LIVOLTEK off-grid hybrid inverter is an important part of the off-grid solar power system. Built-in MPPT solar charge controller, integrated functions of a solar charger and battery charger, this smart solar inverter can be connected to the public grid and manage a PV system with a battery bank to offer continuous power.
