

Guam solarus smart energy solutions

Why should you choose Solarus hot water solutions?

Solarus hot water solutions offer 4x more energy generation per m² compared to standard photovoltaic solutions, leading to 4x more CO₂ reductions and 3x more profitability. Their dual generation of energy, both electricity and heat, allows for quiet and efficient conversion of sunlight to energy for decades.

Why is Solarus a competitive advantage?

Around one and a half hours of sunlight on our earth covers the entire yearly need for energy in the world. Hence, we have no lack of energy on earth; it is just a matter of harvesting the sunlight efficiently and that is the competitive advantage of Solarus.

Why should you choose Solarus?

Solarus solutions collect up to 4 times more total energy from the same (roof) area, over any PV installation. Solarus turn-key projects deliver the lowest per-kilowatt energy costs over any competition on limited (roof) space, guaranteed! 4x more CO₂ reductions and 3x more profitable vs a regular solar PV installation.
