

Guinea geneverse solar generator

What is a Geneverse solar generator & portable power station?

Geneverse indoor-safe solar generators and portable power stations provide our customers with reliable, no-fuss power wherever they need it. By making home energy usage smarter and more self-sustainable, we hope to empower families and communities with energy independence through emergencies and everyday life.

What is a Geneverse solar generator?

Unlike gas and propane generators, Geneverse solar generators allow you to safely bring portable power inside to operate home essentials. Geneverse's backup battery generators provide the emergency backup power needed to keep 99% of home devices operational.

Are Geneverse solar generators safe?

Geneverse solar generators are indoor safe and do not rely on gasoline or propane. Each Geneverse pulls power from an enclosed battery to operate devices, which can be charged by AC wall outlets, Geneverse solar panels, or car DC battery.

How many watts can a Geneverse solar generator power?

The Geneverse solar generator lineup supports devices from 1000 rated watts up to 4400 surge watts (HomePower TWO PRO). Each unit's variety of available plugs make powering multiple items easy. With solar panels, you get zero-cost, renewable energy.

What is Geneverse energy storage?

At Geneverse, our energy storage solutions are designed to power your family's essential devices through emergencies and everyday life. We are innovating the smart home space and redefining the generator industry with indoor-safe solar generators that deliver no-fuss, renewable power.

What is included in the Homepower one pro solar generator?
