GCL-Poly, founded in 1996, is a subsidiary of Golden Concord Group Limited (GCL), a green energy supplier in China, providing power and heat via cogeneration, incineration and wind power. As of 2009 it was the largest supplier of polysilicon in China, and is also a supplier of electronic wafers for the solar industry.

GCL cold hydrogenation and rod-shaped silicon processing and its FBR granular silicon manufacturing are self-innovated and self-developed achievements. Solar silicon materials aside, GCL-Poly Energy has also made major breakthroughs in electronic-grade polysilicon, large-scale perovskite and other fields, filling domestic gaps in China.
