Does Haiti have electricity?

Only a quarter of the Haitian population has access to electricity. The national power utility company, Electricit  d'Ha ti (EDH), predominantly serves the Port-au-Prince metropolitan area, and a limited number of isolated power grids connect the rest of the country. Many rural Haitians have limited alternatives to power their homes.

Does Haiti have a power grid?

The national power utility company, Electricit  d'Ha ti (EDH), predominantly serves the Port-au-Prince metropolitan area, and a limited number of isolated power grids connect the rest of the country. Many rural Haitians have limited alternatives to power their homes. "There's always been a shortage of electricity in the country," says Anne.

What does USAID do in Haiti?

Through the Haiti INVEST activity, USAID works with Haitian business advisory services firms, like GEKA, one of the six transaction advisors participating in the investment facilitation program to help local businesses like ESG Group prepare to solicit and access capital to expand their operations.

To verify the preliminary design, a site visit was conducted in February 2015. Installation occurred during May 8th through May 14th 2016. 23 students traveled to Thoman, Haiti and installed the 7.2 kW microgrid. The total project cost was around \$50,000. It was a life changing experience for all the groups involved.

Haiti's relatively underdeveloped electricity grid means it can integrate renewable energy into its energy supply. According to the World Watch Institute study in 2014, Lake Azu i in the country has potential that makes it the most attractive wind site in Haiti.

The Georgia Institute of Technology's Haiti RELAY team was created in 2015 to help spark the growth of electrification rates in these regions through the development of a simple, cost ...
