

Hawker energy battery Namibia

Who is Hawker Power Group Limited?

Hawker Power Group Limited products in 1996 to enter the Chinese market, the application of multiple areas are recognized, its located in Hong Kong, China Asia Pacific Center, with agents for domestic users to provide a full range of after-sales service.

Are Hawker batteries safe?

They are certified non-spillable and meet Department of Transportation DOT hazardous material requirements. Hawker batteries have a 30-month shelf life and a 36-month warranty backed by superior direct customer support. EnerSys 2024.

What is the difference between a Hawker battery and a Hawker batteries?

Hawker batteries have some differences compared to a standard Hawker battery. Hawker batteries use thinner plates (up to twice as many plates than are found in a same-sized flooded-cell battery), and Hawker battery plates are 99.99% pure lead. More plates equate to more active-material surface area.

What is the output voltage of a Hawker float/trickle charger?

Under normal conditions, a Hawker float/trickle charger should have an output voltage of between 13.5 to 14.1 VDC when float charging a single nominal 12-volt battery. The optimal constant voltage is 13.62 VDC at 77°F (25°C).

What is a Hawker flexpak TM thin plate pure lead battery/charger pack?

HAWKER FLEXPAC TM Thin Plate Pure Lead battery/charger packs offer outstanding flexibility and ease of use that will change the way you work. This sealed battery/charger pack can be used when and where you need it most for exceptional performance. Concerned about maintenance expenses?
