What is Hazelwood Bess?

Jointly funded and developed by ENGIE and Eku Energy, the 150 MW/150 MWh Hazelwood BESS is Australia's largest privately funded utility-scale battery.

Is Hazelwood a new era in Australia's energy transition?

Marking a new era in Australia's energy transition, Hazelwood is the first retired coal-fired power station to host a battery storage system in Australia and represents a key moment in repurposing former thermal assets for renewable energy technologies.

What makes Hazelwood unique?

As an established power generation site with access to 1,600MW of dormant transmission capacity, Hazelwood is uniquely placed to accommodate battery infrastructure.

Who is delivering the Hazelwood battery?

The Hazelwood Battery is being delivered by ENGIE, Eku Energy and Fluence. About ENGIE With its 96,000 employees, its customers, partners and stakeholders, the Group's vision is to accelerate the transition towards a carbon neutral economy.

Why is a Hazelwood Battery A major milestone for Fluence?

Achal Sondhi, Vice President for Market Growth, APAC & General Manager for Australia at Fluence said: As the first project in Australia to deploy Fluence Gridstack, an energy storage product which is designed for the most demanding market applications, the Hazelwood battery is a major milestone for us.

What is a Hazelwood battery?

"The Hazelwood battery will be the product of Fluence's latest generation technology, supported by our rapidly growing team in Victoria and the most widely adopted automated trading platform available in Australia today," Fluence Australia general manager Aaron McCann said.

Située sur le site de l'ancienne centrale électrique d'Hazelwood, le système de Stockage d'Energie par Batterie d'Hazelwood (HBESS) est une batterie grande échelle de 150 MW/150 MWh, qui est ce jour le plus important BESS (Battery Energy Storage System) d'ENGIE au niveau mondial.

Ce 14 juin, ENGIE a mis en service son plus grand Système de Stockage d'Énergie par Batterie (BESS) au niveau mondial sur le site d'Hazelwood, située dans l'État de ...
