

Heard and McDonald Islands safe energy solutions

Should the government protect Heard Island and McDonald Islands?

Important areas around the islands remain unprotected, despite a wealth of scientific evidence pointing to the need for safeguards. On this measure, the government could have done far more to protect this unique wildlife haven. Heard Island and McDonald Islands are a crucial sanctuary for marine life in the Southern Ocean.

Where is Heard Island & McDonald Islands located?

Located in the Southern Ocean, many thousands of kilometres from the nearest significant human population, Heard Island and McDonald Islands (HIMI) has a fair amount of natural protection from the potentially harmful effects of human activities.

What happened to Australia's public consultation on the Heard & McDonald Islands?

The Australian Government's public consultation on the draft marine park plans for the Heard and McDonald Islands has wrapped. Stay tuned for an update on the outcome of this consultation process.

Where are Australia's heard and McDonald Islands?

Stay tuned for an update on the outcome of this consultation process. Australia's Heard and McDonald Islands are among the most remote places on Earth, these globally significant, wild, volcanic islands lie 4,000km south-west of Perth down near Antarctica. Every 10-years the Australian government reviews the Heard and McDonald Islands Marine Park.

How often does Australia review the Heard & McDonald Islands Marine Park?

Every 10-years the Australian government reviews the Heard and McDonald Islands Marine Park. This gives us a once-in-a-decade opportunity to increase protection for this spectacular marine treasure.

Are Heard Island and McDonald Islands a 'unique and extraordinary' part of our planet?

Announcing the decision, Environment Minister Tanya Plibersek said Heard Island and McDonald Islands - about 4,000 kilometres southwest of Perth - are a "unique and extraordinary part of our planet. We are doing everything we can to protect it." But the announcement, while welcome, is a missed opportunity on several fronts.

Heard Island and McDonald Islands are located in the Southern Ocean, approximately 1,700 km from the Antarctic continent and 4,100 km south-west of Perth. As the only volcanically active subantarctic islands they "open a window into the earth", thus providing the opportunity to observe ongoing geomorphic
