

Helius energy Jersey

What does Helius do?

Helius was established to identify, develop, own and operate biomass fired renewable electricity generation plants. These will help meet the UK's growing need for reliable energy from renewable sources.

Why should you choose Helius energy?

Helius possesses significant knowledge of renewable energy markets, biomass energy technologies, biomass fuel sources, project development, implementation and operation of power generation plants. Helius Energy is a responsible and ethical company and is totally committed to being a sustainable business.

Who owns Helius energy?

In September 2008 Helius Energy sold rights to its first 65MWe biomass project at Stallingborough, North East Lincolnshire, to RWE Innogy UK, a wholly owned subsidiary of RWE AG.

Does Helius Energy Ltd trade on aim?

Helius Energy Ltd trades on AIM. The company has not applied to or agreed to have any of its securities (including AIM securities) admitted or traded on any other exchange or trading platform. Helius Energy Ltd is subject to the UK's City Code on Takeovers and Mergers.

Does Helius Energy Ltd comply with the UK corporate governance code?

Helius Energy Ltd is subject to the UK's City Code on Takeovers and Mergers. The Board seeks to comply with a number of the provisions of the UK Corporate Governance Code (the Code) in so far as it considers them to be appropriate to a company of the size and nature of Helius Energy Ltd.

What is Helius corde?

Helius CoRDe Limited ("CoRDe") is an operational biomass energy plant in Rothes, Speyside, Scotland, which uses by-products from nearby malt whisky distilleries to produce renewable energy and liquid animal feed product (Pot Ale Syrup). The plant comprises a 7.2MWe Net Capacity power plant and a 66.5t/h pot ale evaporator plant.
