HES Energy Systems is a manufacturer and developer of cleantech aviation, aerospace, and autonomous aerial systems and products. It offers hydrogen-electric aircraft, hexacopter hydrogen drones, lithium battery alternatives, hydrogen-electric fuel cell systems for robots, drones, and aircraft, hydrogen-electric passenger aviation systems, and other solutions.

HES Energy Systems is. regarded as one of the most advanced fuel cell and hydrogen storage technology developers in the world, with system level energy densities that meet or exceed the performance targets set by US Dept. of Energy. It has worked under a US DARPA program in 2010 and 2011, focused on novel power solution development in the field ...

With a global HQ in Singapore, Horizon is a world leading developer and manufacturer of liquid-cooled and air-cooled PEM fuel cells and integrated products up to 370kW single modules, targeting heavy duty applications from MW-level stationary ...
