

Hiku7 solar panel Switzerland

What is hiku7 solar?

In HiKu7, Canadian Solar uses non-destructive scribing and thermal stress to split the cell which prevents cracks and improves the mechanical strength of the cell. The half-cell design of HiKu7 modules reduces the hot spot temperature & the large area of the solar cell makes the hot spot temperature rise more moderately.

How do I get the best prices on Canadian Solar hiku7 modules?

To get the best prices on Canadian Solar HiKu7 modules, give us a call at 011 4353 6666. Share This Story, Choose Your Platform! Canadian Solar HiKu7 is the most efficient MonoPERC solar panel with more than 600w.

What is a Hiku Canadian solar panel?

These panels are up to 665W and up to 2.4m in length, significantly larger in dimensions and output than a typical residential solar panel. The HiKu Canadian Solar panels are regularly used in rooftop commercial projects as they offer great module efficiency at a cost-effective price.

Where can I install hiku6 solar panels?

This means the HiKu6 modules can be installed anywhere with access to sunlight. So if you reside in an area with less than ideal solar conditions, the HiKu6 panels might be the perfect option for you. Next Steps... Interested in installing solar?
