Who is Hitachi energy?

Hitachi Energy is a global technology leader that is advancing a sustainable energy future for all. We are advancing the world's energy system to be more sustainable, flexible and secure and we collaborate with customers and partners to enable a sustainable energy future - for today's generations and those to come.

Does Hitachi energy offer HVDC technology?

Hitachi Energy will deliver HVDC technology to facilitate the establishment of several Grid United HVDC interconnections under a capacity reservation agreement. The multi-contract framework, introduced by Hitachi Energy, is one of the initial innovative business models for the US.

Who are RTE & Hitachi energy?

Following an international call for bids, RTE, the project owner of the connection of offshore wind farms, has selected the Chantiers de l'Atlantique and Hitachi Energy consortium to carry out the execution of offshore and onshore conversion stations for the future offshore wind farms in Normandy and Ole?ron.

Is biomass a source of electricity in Saint Lucia?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Saint Lucia: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.
