

Hitachi energy gis Ivory Coast

What makes Hitachi energy a great GIS company?

Hitachi Energy has always been and continues to drive innovation in GIS technology in ratings, operations, switching technology, smart control and supervision, and compactness. As a result, Hitachi Energy's GIS offers outstanding reliability, operational safety and environmental compatibility.

Why should you choose Hitachi energy for gas insulated switchgear?

We provide a well-proven GIS technology for increased mechanical integrity and system flexibility with improved protection. Hitachi Energy's service portfolio for gas-insulated switchgear (GIS) is created to cover all essential parts needed to give your GIS a long life.

Who is Hitachi energy?

Hitachi Energy is a global technology leader that is advancing a sustainable energy future for all. We are advancing the world's energy system to be more sustainable, flexible and secure and we collaborate with customers and partners to enable a sustainable energy future - for today's generations and those to come.

Is Hitachi energy a good brand?

Hitachi Energy pioneered high voltage gas-insulated switchgear in the mid-1960s. Thanks to robust design, high quality from the start and a sound service strategy - some of the earliest products are still functioning and keep on serving their intended purposes in different applications worldwide, day in and day out.

Why should you choose Hitachi energy?

The gas-insulated switchgear development history throws some light on technology development achieved throughout the years, and the service portfolio shows vast possibilities of how you can modernize your existing equipment. Why Hitachi Energy?

What is Econiq 550 kV GIS substation?

Each new 550 kV GIS substation using Econiq eliminates the carbon equivalent of 170 fully booked jumbo jets flying from Paris to New York while retaining the size, performance, and reliability levels of traditional switchgear.

Hitachi Energy delivered the world's first GIS substation in 1965, pioneering GIS technology; ... Hitachi Energy's gas-insulated switchgear (GIS) portfolio offers a complete range of products for all ratings and applications from 72.5 kV to 1200 kV. Read more. Mobile substations.

Hitachi Energy 2030 Plan. Advancing a sustainable energy future for all. Learn more. Customer Success

Stories. Together with our customers and partners, we are co-creating global and local solutions to benefit society ... GIS ELK-04 ; Rated voltage [kV] 145: 170: Rated frequency [Hz] 50/60: Rated short-duration power-frequency withstand voltage ...

Hitachi Energy's high standard of quality control and advanced R& D processes ensure superior product quality. The outstanding product design expertise with project emulation and highly experienced engineers enable a best-in-class gas-insulated line to customers worldwide.

Starting from one gas compartment, the system can be seamlessly up-scaled to monitor several hundred gas compartments in large GIS installations. Benefits of Modular Switchgear Monitoring (MSM) for gas applications: SF 6 leakages make up 40-50% of "minor failure frequency" and up to 90% of GIS maintenance

1893 byggdes den första kommersiella trefasverken mellan Hallsjöns vattenkraftverk och gruvorna i Grangesberg. Idag, mer än 120 år senare, fortsätter Hitachi Energy i Ludvika att ...
