Will private power companies stabilize Puerto Rico's crumbling electric grid?

(AP Photo/Carlos Giusti, File) SAN JUAN, Puerto Rico (AP) -- Two private power companies came under scrutiny Wednesday while they presented plans to stabilize Puerto Rico's crumbling electric grid as officials demanded immediate action to minimize chronic power outages.

Do Puerto Rican government officials want answers from private electric companies?

(AP Photo/Alejandro Granadillo) SAN JUAN, Puerto Rico (AP) -- A growing number of Puerto Rican government officials on Thursday demanded answers from two private electric companies as the U.S. territory struggles with persistent power outages.

Does Luma energy have a power grid in Puerto Rico?

The contract under which LUMA Energy operates the power grid in Puerto Rico was signed after a bid in 2020. In the bid, five different companies participated and only four submitted business proposals. The \$1,500M contract is set to last for 15 years and can be renewed if both parties agree.

Why does Puerto Rico need electricity?

Every day we depend on electricity. We need it to run lights on the roads, produce goods and services, and keep the economy moving. Our job is to provide you with safe, strong, reliable electric service. The transformation of the electric grid, coupled with better services and rapid response, will allow us to live in a better Puerto Rico.

What happened to Puerto Rico's electric grid after Hurricane Maria?

The outages come just weeks after Tropical Storm Ernesto swiped past the island and left more than 730,000 clients without power. Crews are still making permanent repairs to the island's electric grid after Hurricane Maria razed it in September 2017 as a powerful Category 4 storm.

Will Luma restore power to Puerto Rico after a power outage?

"We want our customers to know that LUMA has been and will continue to work around the clock to restore power to Puerto Rico following the island-wide outage that began early Sunday afternoon. While power restoration has now occurred for more than 100,000 customers, LUMA crews continue to work to stabilize the grid.
