Why Work With Us?

Who is solar energy PT?

We are an Indonesian PT company, under German management, delivering projects to international quality standards. Solar energy is the most intuitive of all forms of renewable energy. Despite its reputation of being expensive, it has come a long way in the past decade and has become very affordable.

Do solar panels use PLN?

The reason is simple, solar panels only produce energy when there is sufficient direct sunlight. In Indonesia, that amounts to around 4-5 hours/day. The rest of the time you would need PLN to supply electricity to your building, especially if you wish to run air conditioners, which consume the most power in most households!
