\*How we worked out your Solar Savings. The estimated savings you can make with our Solar Savings tariff are based on a 2-3 bedroom home with a medium electricity demand of 2,700kWh (Ofgem), installing a 10 panel system with a 3.68kW inverter and a 10.5kw battery via a Good Energy package. It is estimated that you will export 20-25% of the power you generate.

We bring you the technology you need to harness sunlight and produce hot water both for home and industrial use. With decades of experience, our team of technicians are experts in solar water heating systems. We offer a wide range of solar water heaters and configurable solutions to suit any size of application.
