

Home solar power system scam

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.

Are rooftop solar panels a scam?

While rooftop solar panels are becoming increasingly ubiquitous in homes throughout the United States, the industry also has a more sinister side: a seemingly widespread problem of fraudulent business practices that has cast a shadow over many solar panel companies.

Is a solar lease a scam?

Solar lease or power purchase agreement (PPA) scams: Although leasing solar panels or financing using a PPA are not necessarily scams, these contracts are extremely difficult to break and can leave you saddled with an unwanted monthly payment for a solar array you don't even own.

How do I avoid solar panel scams?

Knowing about solar scams and what to look out for can help you protect your assets and prevent you from becoming victimized. To avoid solar panel scams, we strongly recommend doing your own research and verifying that your solar company is legitimate before signing any contracts. Take time to make the right decision: Never rush into a contract.
