

Home solar system price in Cayman Islands

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

What is the first commercial solar project in Cayman?

The 20 acre 5MW Solar Farm located in Bodden Town is the first commercial solar project in Cayman. Completed in 2017, this solar farm was also the first Independent Power Producer (IPP) in Grand Cayman, selling electricity to CUC through a Power Purchase Agreement (PPA).

How much does electricity cost in Cayman Islands?

Cayman Islands, March 2023: The price of electricity is 0.414 U.S. Dollar per kWh for households and 0.376 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

Solar panels on the Tomlinson Furniture Building (Photo courtesy of Affordable Solar Cayman) (CNS): Both the Utility Regulation and Competition Office (OfReg) and Caribbean Utilities Company have begun separate and independent studies to gather evidence on a price that is fair for solar providers and for customers as the Cayman Islands inches towards a much ...

Grand Cayman, the largest island, is known for its beach resorts. Cayman Brac is a popular launch point for deep-sea fishing excursions. Little Cayman is the smallest island. The population of the Cayman is 64,948 with the capital being George Town. Cayman has a high solar potential and set a renewable energy mix target

Home solar system price in Cayman Islands

of 100% by 2030.

What is the cushy plan to exploit solar providers? The home solar providers on the system now have a sweet deal with their rates subsidized by others. Net Metering is a big mistake as again it will have the non-producers, usually the small consumers who cannot afford the \$40,000 solar system pay for those who can. Doesn't sound fair to me.

To maximize your solar PV system's energy output in George Town, Cayman Islands (Lat/Long 19.2886, -81.3722) throughout the year, you should tilt your panels at an angle of 17° South for fixed panel installations.

This has been blamed for the incredibly slow adoption of green energy in the Cayman Islands. "The value of solar study will help OfReg to determine a fair rate for energy that customer-owned solar systems provide the electric grid and is a critical step towards helping the Cayman Islands attain the clean energy future envisioned in its ...
