

Will Hong Kong become the green tech centre of Asia?

The intersection of Green and Tech is an untapped sweet spot that plays to the fundamental strengths of Hong Kong and has the potential to transform Hong Kong into the Green Tech centre of Asia.

Does Hong Kong have a green tech fund?

No event. The Government has set up a Green Tech Fund (GTF) in 2020 to fund research and development (R&D) projects which help Hong Kong decarbonise and enhance environmental protection.

Is Hong Kong a world leader in green-tech & green-Fi?

Just last month, we also issued a tokenised green bond, the first of its kind released anywhere in the world by a government. In short, ladies and gentlemen, Hong Kong has what it takes to rise as a world leader in green-tech and green-fi.

What can Hong Kong do for GreenTech?

Hong Kong can further pioneer demonstration projects in green construction, low-carbon transportation and circular economy, while constructing a robust ecosystem to attract GreenTech enterprises from Mainland China and abroad through promoting incubation and acceleration policies, concessional finance and innovative use cases."

What is the Hong Kong GreenTech summit 2024?

Join us at the Hong Kong GreenTech Summit 2024 to drive together green innovations and technologies for the city and pave way for a sustainable future. The event is by-invitation on a first-come-first-served basis, subject to organisers' approval. Confirmation email with QR code will be sent for admission.

Is the green tech industry a good investment?

The green tech industry is certainly one of the areas to channel such new capital. I am confident that a good many of the strategic companies and professionals in Europe will find a flourishing future to collaborate with us. Ladies and gentlemen, Hong Kong is committed to promoting sustainable development.
